PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Note 1 — Description of Organization and Business Operations

Pathfinder Acquisition Corporation (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on December 18, 2020. The Company was incorporated for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses that the Company has not yet identified (“Business Combination”).

As of June 30, 2021, the Company had not yet commenced operations. All activity for the period from December 18, 2020 (inception) through June 30, 2021 relates to the Company’s formation and the initial public offering (the “Initial Public Offering”), which is described below, and since the Company’s Initial Public Offering, the search for a business combination target. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The Company’s sponsor is Pathfinder Acquisition LLC, a Delaware limited liability company (“Sponsor”). The registration statement for the Company’s Initial Public Offering was declared effective on February 16, 2021. On February 19, 2021, the Company consummated its Initial Public Offering of 32,500,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”), including 2,500,000 additional Units to partially cover over-allotments (the “Over-Allotment Units”), at \$10.00 per Unit, generating gross proceeds of \$325.0 million, and incurring offering costs of approximately \$18.5 million, of which approximately \$11.4 million was for deferred underwriting commissions (Note 5). The underwriters had 45 days from the effective date of the prospectus to exercise the remaining portion of its option to purchase up to 2,000,000 Units at the Initial Public Offering price to cover over-allotments, if any. On April 2, 2021, the over-allotment option on the remaining Units expired unexercised by the underwriters.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private placement (“Private Placement”) of 4,250,000 warrants (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”) to the Sponsor, each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$2.00 per Private Placement Warrant, generating gross proceeds to the Company of \$8.5 million (Note 4).

Upon the closing of the Initial Public Offering and the Private Placement, \$325.0 million (\$10.00 per Unit) of the net proceeds of the Initial Public Offering and certain of the proceeds of the Private Placement were placed in a trust account (“Trust Account”) with Continental Stock Transfer & Trust Company acting as trustee and are invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940, as amended, or the Investment Company Act, which are invested only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of its Initial Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company’s initial Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on the income earned on the Trust Account) at the time the Company signs a definitive agreement in connection with the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target business or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

The Company will provide its holders (the “Public Shareholders”) of the Public Shares with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). These Public Shares are recorded at a redemption value and classified as temporary equity upon the completion of the Initial Public Offering, in accordance with Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and a majority of the shares voted are voted in favor of the Business Combination. If a shareholder vote is not required by applicable law or stock exchange listing requirements and the Company does not decide to hold a shareholder vote for business or other reasons, the Company will, pursuant to the second amended and restated memorandum and articles of association which was adopted by the Company upon the consummation of the Initial Public Offering (the “Amended and Restated Memorandum and Articles of Association”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (the “SEC”), and file tender offer documents with the SEC prior to completing a Business Combination. If, however, a shareholder approval of the transactions is required by applicable law or stock exchange listing requirements, or the Company decides to obtain shareholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction or whether they were a Public Shareholder on the record date for the general meeting held to approve the proposed transaction. If the Company seeks shareholder approval in connection with a Business Combination, the holders of the Founder Shares prior to this Initial Public Offering (the “Initial Shareholders”) agreed to vote their Founder Shares (as defined in Note 4) and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination. In addition, the Initial Shareholders agreed to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination. In addition, the Company agreed not to enter into a definitive agreement regarding an initial Business Combination without the prior consent of the Sponsor.

Notwithstanding the foregoing, the Company’s Amended and Restated Memorandum and Articles of Association provides that a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Class A ordinary shares sold in the Initial Public Offering, without the prior consent of the Company.

The Company’s Sponsor, officers and directors agreed not to propose an amendment to the Company’s Amended and Restated Memorandum and Articles of Association (A) to modify the substance or timing of the Company’s obligation to allow the redemption of its Public Shares in connection with a Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provisions relating to shareholders’ rights or pre-initial business combination activity, unless the Company provides the Public Shareholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

If the Company is unable to complete a Business Combination within 24 months from the closing of the Initial Public Offering, or February 19, 2023 (the “Combination Period”), the Company will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders’ rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii), to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

The Initial Shareholders agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Shareholders should acquire Public Shares in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters agreed to waive their rights to their deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the funds held in the Trust Account that will be available to fund the redemption of the Company's Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution in the Trust Account will be less than the \$10.00 per share initially held in the Trust Account. In order to protect the amounts held in the Trust Account, the Sponsor agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). In the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have vendors, service providers (except the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account. There can be no guarantee that the Company will be successful in obtaining such waivers from its targeted vendors and service providers.

Liquidity and Capital Resources

As of June 30, 2021, the Company had approximately \$332,000 in its operating bank accounts, which is not sufficient working capital to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing.

Prior to the completion of the Initial Public Offering, the Company's liquidity needs had been satisfied through the payment of \$25,000 from the Sponsor to cover for certain expenses on behalf of the Company in exchange for the issuance of the Founder Shares, and a loan of approximately \$129,000 pursuant to the Note issued to the Sponsor (as defined in Note 4). The Company repaid the Note in full on February 19, 2021. Subsequent to the consummation of the Initial Public Offering and Private Placement, the Company's liquidity needs have been satisfied with the proceeds from the consummation of the Private Placement not held in the Trust Account. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor will provide the Company Working Capital Loans (as defined in Note 4). As of June 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loan.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity from the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using the funds held outside the Trust Account for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Note 2 — Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("GAAP") for financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by GAAP. In the opinion of management, the unaudited condensed financial statements reflect all adjustments, which include normal recurring adjustments necessary for the fair statement of the balances and results for the periods presented. Operating results for the three and six months ended June 30, 2021 are not necessarily indicative of the results that may be expected through December 31, 2021 or for any period thereafter.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

In April 2021, the Company identified a misstatement in its accounting treatment for warrants issued in connection with the Initial Public Offering (the “Public Warrants”) and the warrants issued in connection with the Private Placement Warrants (collectively, the “Warrants”) as presented in its audited balance sheet as of February 19, 2021 included in its Current Report on Form 8-K, filed February 25, 2021. The Warrants were reflected as a component of equity as opposed to liabilities on the balance sheet. Pursuant to the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 250, *Accounting Changes and Error Corrections*, and Staff Accounting Bulletin 99, “Materiality”) (“SAB 99”) issued by the SEC, the Company determined the impact of the error was immaterial. The following balance sheet items were impacted from the error correction as of February 19, 2021: an increase of approximately \$16.3 million in derivative warrant liabilities; a decrease of approximately \$16.3 million in the amount of Class A ordinary shares subject to redemption; an increase of \$575,330 in additional paid-in capital; and an increase of \$575,330 in accumulated deficit.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s unaudited condensed financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had no cash equivalents as of June 30, 2021 and December 31, 2020.

Investments Held in the Trust Account

The Company’s portfolio of investments held in the Trust Account is comprised of U.S. government securities, within the meaning set forth in Section 2(a) (16) of the Investment Company Act, with a maturity of 185 days or less, or investments in money market funds that invest in U.S. government securities, or a combination thereof. The Company’s investments held in the Trust Account are classified as trading securities. Trading securities are presented on the condensed balance sheets at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these securities is included in income from investments held in Trust Account in the accompanying unaudited condensed statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Corporation coverage limit of \$250,000. As of June 30, 2021 and December 31, 2020, the Company had not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities which qualify as financial instruments under the FASB ASC Topic 820, "Fair Value Measurements" approximate the carrying amounts represented in the condensed balance sheets.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers consist of:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

Derivative Warrant Liabilities

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to FASB ASC Topic 480 "Distinguishing Liabilities from Equity" ("ASC 480") and FASB ASC Topic 815, "Derivatives and Hedging" ("ASC 815"). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The 6,500,000 warrants issued in connection with the Initial Public Offering (the "Public Warrants") and the 4,250,000 Private Placement Warrants are recognized as derivative liabilities in accordance with ASC 815. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the carrying value of the instruments to fair value at each reporting period until they are exercised or expire. The initial fair value of the Public Warrants issued in connection with the Public Offering and the fair value of the Private Placement Warrants have been estimated using a binomial lattice model in a risk-neutral framework. The fair value of the Public Warrants as of June 30, 2021 is based on observable listed prices for such warrants. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

Offering Costs Associated with the Initial Public Offering

Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the Initial Public Offering that were directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with derivative warrant liabilities are expensed as incurred and presented as non-operating expenses in the condensed statements of operations. Offering costs associated with the Class A ordinary shares issued were charged to shareholders' equity upon the completion of the Initial Public Offering. The Company classifies deferred underwriting commissions as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

Class A Ordinary Shares Subject to Possible Redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC 480. Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including shares of Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, as of June 30, 2021 and December 31, 2020, 29,823,880 and 0 shares of Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders' equity section of the Company's condensed balance sheets.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Net income (loss) per ordinary share

Net income (loss) per ordinary share is computed by dividing net income (loss) by the weighted-average number of shares of ordinary shares outstanding during the period. The Company has not considered the effect of the warrants sold in the Initial Public Offering and private placement to purchase an aggregate of 10,750,000 shares of the Company's Class A ordinary shares in the calculation of diluted loss per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company's unaudited condensed statements of operations includes a presentation of income (loss) per share for ordinary shares subject to redemption in a manner similar to the two-class method of income (loss) per ordinary share. Net income (loss) per ordinary share, basic and diluted, for Class A ordinary shares for the three and six months ended June 30, 2021, is calculated by dividing the income from investments held in the Trust Account of approximately \$8,000 and \$9,000, respectively, for the three and six months ended June 30, 2021, by the weighted average number of Class A ordinary shares outstanding for the period.

Net income (loss) per ordinary share, basic and diluted, for Class B ordinary shares is calculated by dividing the net income (loss), adjusted for income or loss attributed to Class A ordinary shares, by the weighted average number of shares of Class B ordinary shares outstanding for the period.

Income Taxes

The Company complies with the accounting and reporting requirements of FASB ASC Topic 740, "Income Taxes" ("ASC 740"), which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2021 and December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman federal income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's unaudited condensed financial statements. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Recent Accounting Pronouncements

In August 2020, the FASB issued Accounting Standards Update ("ASU") No. 2020-06, "Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity" ("ASU 2020-06"), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on January 1, 2021. Adoption of the ASU did not impact the Company's financial position, results of operations or cash flows.

The Company's management does not believe that any other recently issued, but not yet effective, accounting standards updates, if currently adopted, would have a material effect on the Company's unaudited condensed financial statements.

Note 3 — Initial Public Offering

On February 19, 2021, the Company consummated its Initial Public Offering of 32,500,000 Units, including 2,500,000 Over-Allotment Units, at \$10.00 per Unit, generating gross proceeds of \$325.0 million, and incurring offering costs of approximately \$18.5 million, of which approximately \$11.4 million was for deferred underwriting commissions. The underwriters have 45 days from the effective date of the prospectus to exercise the remaining portion of its option to purchase up to 2,000,000 Units at the Initial Public Offering price to cover over-allotments. On April 2, 2021, the over-allotment option on the remaining Units expired unexercised by the underwriters; thus, 500,000 Class B ordinary shares were forfeited.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Each Unit consists of one Class A ordinary share and one-fifth of one redeemable warrant ("Public Warrant"). Each whole Public Warrant will entitle the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment (see Note 7).

Note 4 — Related Party Transactions

Founder Shares

On December 28, 2020, the Sponsor paid an aggregate of \$25,000 for certain expenses on behalf of the Company in exchange for issuance of 7,906,250 Class B ordinary shares (the "Founder Shares"). On February 16, 2021, the Company effected a share dividend of 718,750 Class B ordinary shares to the Sponsor, resulting in there being an aggregate of 8,625,000 Class B ordinary shares outstanding. The Sponsor agreed to forfeit up to an aggregate of 1,125,000 Founder Shares to the extent that the option to purchase additional Units is not exercised in full by the underwriters or is reduced, so that the Founder Shares will represent 20% of the Company's issued and outstanding shares after the Initial Public Offering. The underwriters partially exercised their over-allotment option to purchase an additional 2,500,000 Units on February 19, 2021 and on April 2, 2021, the over-allotment option on the remaining Units expired unexercised by the underwriters; thus, 500,000 Class B ordinary shares were forfeited by the Sponsor.

The Initial Shareholders agreed not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination or earlier if, subsequent to the initial Business Combination, the closing price of the Class A ordinary share equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, capitalization of shares, share dividends, rights issuances, subdivisions reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, and (B) the date following the completion of the initial Business Combination on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the Company's shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

Private Placement Warrants

Simultaneously with the closing of the Initial Public Offering, the Company consummated the Private Placement of 4,250,000 Private Placement Warrants to the Sponsor, each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$2.00 per Private Placement Warrant, generating gross proceeds to the Company of \$8.5 million.

Each whole Private Placement Warrant is exercisable for one whole Class A ordinary share at a price of \$11.50 per share. A portion of the proceeds from the sale of the Private Placement Warrants to the Sponsor was added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable except as described below in Note 7 and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Sponsor and the Company's officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

Related Party Loans

On December 23, 2020, the Sponsor agreed to loan the Company up to \$300,000 to be used for the payment of costs related to the Initial Public Offering pursuant to a promissory note (the "Note"). The Note was non-interest bearing, unsecured and due upon the closing of the Initial Public Offering. Prior to the closing of the Initial Public Offering, the Company borrowed approximately \$129,000 under the Note. The Note was fully repaid on February 19, 2021.

In addition, in order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors will loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company may repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans may be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1.5 million of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$2.00 per warrant. The warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of June 30, 2021 and December 31, 2020, the Company had no borrowings under the Working Capital Loans.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Administrative Services Agreement

Commencing on the date that the Company's securities were first listed on Nasdaq through the earlier of consummation of the initial Business Combination and the liquidation, the Company agreed to pay the Sponsor \$10,000 per month for office space, secretarial and administrative services provided to the Company. For the three and six months ended June 30, 2021, the Company incurred expenses of \$20,000 under this agreement. As of June 30, 2021 and December 31, 2020, the Company had accrued approximately \$30,000 and \$0, respectively, for services in connection with such agreement on the accompanying condensed balance sheets.

In addition, the Sponsor, officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company's behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. The audit committee will review on a quarterly basis all payments that were made by the Company to the Sponsor, officers or directors, or the Company's or their affiliates. Any such payments prior to an initial Business Combination will be made from funds held outside the Trust Account.

Note 5 — Commitments and Contingencies

Registration and Shareholder Rights

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans) are entitled to registration rights pursuant to a registration and shareholder rights agreement entered into on the effective date of the Initial Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company registers such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$6.5 million in the aggregate, payable upon the closing of the Initial Public Offering. In addition, \$0.35 per unit, or approximately \$11.4 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these unaudited condensed financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 6 — Shareholders' Equity

Preference Shares — The Company is authorized to issue 1,000,000 preference shares with a par value of \$0.0001 per share. As of June 30, 2021 and December 31, 2020, there were no preference shares issued or outstanding.

Class A Ordinary Shares — The Company is authorized to issue 300,000,000 Class A ordinary shares with a par value of \$0.0001 per share. Holders of the Company's Class A ordinary shares are entitled to one vote for each share. As of June 30, 2021 and December 31, 2020, there were 2,676,120 and 0, respectively, of Class A ordinary shares issued and outstanding, excluding 29,823,880 and 0, respectively, of Class A ordinary shares subject to possible redemption.

Class B Ordinary Shares — The Company is authorized to issue 30,000,000 Class B ordinary shares with a par value of \$0.0001 per share. On December 28, 2020, the Company issued 7,906,250 Class B ordinary shares. On February 16, 2021, the Company effected a share dividend of 718,750 Class B ordinary shares to the Sponsor, resulting in there being an aggregate of 8,625,000 Class B ordinary shares outstanding. Of the 8,625,000 Class B ordinary shares outstanding, up to 1,125,000 Class B ordinary shares were subject to forfeiture, to the Company by the Initial Shareholders for no consideration to the extent that the underwriters' over-allotment option was not exercised in full or in part, so that the Class B ordinary shares would collectively represent 20% of the Company's issued and outstanding ordinary shares after the Initial Public Offering. The underwriters partially exercised their over-allotment option to purchase an additional 2,500,000 Units on February 19, 2021 and on April 2, 2021, the over-allotment option on the remaining Units expired unexercised by the underwriters; thus, 500,000 Class B ordinary shares were subsequently forfeited.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders and holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the shareholders except as required by law; provided that only holders of Class B ordinary shares will have the right to vote on the appointment of directors prior to or in connection with the completion of the initial Business Combination.

The Class B ordinary shares will automatically convert into Class A ordinary shares at the time of the initial Business Combination at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of the Initial Public Offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities (as defined herein) or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial Business Combination and any private placement warrants issued to the Sponsor, its affiliates or any member of the management team upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

Note 7 — Warrants

As of June 30, 2021 and December 31, 2020, the Company had 6,500,000 and 0, respectively, of Public Warrants and the 4,250,000 and 0, respectively, of Private Placement Warrants outstanding.

Public Warrants may only be exercised for a whole number of shares. No fractional Public Warrants will be issued upon separation of the Units and only whole Public Warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Initial Public Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the Public Warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or the Company permit holders to exercise their warrants on a cashless basis under certain circumstances). The Company agreed that as soon as practicable, but in no event later than 20 business days after the closing of the initial Business Combination, the Company will use commercially reasonable efforts to file with the SEC a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants and to maintain a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrants have an exercise price of \$11.50 per share, subject to adjustments, and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the Initial Shareholders or their affiliates, without taking into account any Founder Shares held by the Initial Shareholders or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of Class A ordinary shares during the 10-trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price See “— Redemption of warrants when the price per class A ordinary share equals or exceeds \$18.00” and “— Redemption of warrants when the price per class A ordinary share equals or exceeds \$10.00” as described below).

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except (i) that the Private Placement Warrants and the Class A ordinary shares issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions, (ii) except as described below, the Private Placement Warrants will be non-redeemable so long as they are held by the Sponsor or its permitted transferees and (iii) the Sponsor or its permitted transferees will have the option to exercise the Private Placement Warrants on a cashless basis and have certain registration rights. If the Private Placement Warrants are held by someone other than the Sponsor or its permitted transferees, the Private Placement Warrants will be redeemable by the Company in all redemption scenarios and exercisable by such holders on the same basis as the Public Warrants.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00:

Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the last reported sale price (the "closing price") of Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00:

Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of Class A ordinary shares to be determined by reference to an agreed table based on the redemption date and the "fair market value" of Class A ordinary shares;
- if, and only if, the closing price of Class A ordinary shares equals or exceeds \$10.00 per share (as adjusted) for any 20 trading days within the 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders; and
- if the closing price of the Class A ordinary shares for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders is less than \$18.00 per share (as adjusted), the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding Public Warrants, as described above.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

The “fair market value” of Class A ordinary shares for the above purpose shall mean the volume weighted average price of Class A ordinary shares during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. In no event will the warrants be exercisable on a cashless basis in connection with this redemption feature for more than 0.361 Class A ordinary shares per warrant (subject to adjustment).

If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

Note 8 — Fair Value Measurements

The following table presents information about the Company’s assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2021 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

Description	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Assets:			
Investments held in Trust Account - money market fund	\$ 325,008,727	\$ -	\$ -
Liabilities:			
Derivative warrant liabilities - Public warrants	\$ 6,760,000	\$ -	\$ -
Derivative warrant liabilities - Private placement warrants	\$ -	\$ 4,420,000	\$ -

As of December 31, 2020, there were no assets or liabilities that are measured at fair value on a recurring basis.

Level 1 assets include investments in money market funds that invest solely in U.S. Treasury securities with an original maturity of 185 days or less. The Company uses inputs such as actual trade data, quoted market prices from dealers or brokers, and other similar sources to determine the fair value of its investments.

Transfers to/from Levels 1, 2, and 3 are recognized at the beginning of the reporting period. The estimated fair value of Public Warrants was transferred from a Level 3 measurement to a Level 1 measurement in April 2021, when the Public Warrants were separately listed and traded in an active market. The estimated fair value of the Private Warrants was transferred from a Level 3 measurement to a Level 2 fair value measurement as of June 30, 2021, as the transfer of Private Placement Warrants to anyone who is not a permitted transferee would result in the Private Placement Warrants having substantially the same terms as the Public Warrants, the Company determined that the fair value of each Private Placement Warrant is equivalent to that of each Public Warrant. There were no other transfers to/from Levels 1, 2, and 3 during the three and six months ended June 30, 2021.

The initial fair value of the Public and Private Placement Warrants, issued in connection with the Public Offering, has been estimated using a binomial lattice model. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrants’ listed price in an active market was used as the fair value. The estimated fair value of the Public and Private Placement Warrants, prior to Public Warrants being traded in an active market, is determined using Level 3 inputs. Inherent in a binomial lattice model are assumptions related to the Unit price, expected volatility, risk-free interest rate, term to expiration, and dividend yield. The Unit price is based on the publicly traded price of the Units as of the measurement date. The Company estimated the volatility for the Public and Private Placement Warrants based on the implied volatility from the traded prices of warrants issued by other special purpose acquisition companies. The risk-free interest rate is based on interpolated U.S. Treasury rates, commensurate with a similar term to the Public and Private Placement Warrants. The term to expiration was calculated as the contractual term of the Public and Private Placement Warrants, assuming one year to a Business Combination from the IPO date. Finally, the Company does not anticipate paying a dividend.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

The following table provides quantitative information regarding Level 3 fair value measurements inputs at their measurement dates:

	February 19, 2021
Exercise price	\$ 11.50
Unit price	\$ 10.21
Volatility	25.0%
Term (years)	5.5
Risk-free rate	0.70%

The change in the fair value of the derivative warrant liabilities, measured using Level 3 inputs, for the three and six months ended June 30, 2021 is summarized as follows:

Derivative warrant liabilities at January 1, 2021	\$ -
Issuance of Public and Private Warrants	16,340,000
Change in fair value of derivative warrant liabilities	(1,935,000)
Derivative warrant liabilities at March 31, 2021	\$ 14,405,000
Transfer of Public Warrants to Level 1	(8,710,000)
Transfer of Private Warrants to Level 2	(5,695,000)
Change in fair value of derivative warrant liabilities	-
Derivative warrant liabilities at June 30, 2021	\$ -

Note 9 — Subsequent Events

The Company has evaluated subsequent events and transactions that occurred up to the date unaudited condensed financial statements were available to be issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the unaudited condensed financial statements.

Promissory Note

On July 15, 2021, the Company issued a promissory note (the “Working Capital Note”) to the Sponsor providing for borrowings by the Company in an aggregate principal amount of up to \$500,000. The Working Capital Note was issued to allow for borrowings from time to time by the Company for working capital expenses. The Working Capital Note (i) bears no interest, (ii) is due and payable upon the earlier of (a) February 19, 2023 and (b) the date that Pathfinder consummates an initial business combination and (iii) may be prepaid at any time. As of August 13, 2021, there was no amount outstanding under the Working Capital Note.

PATHFINDER ACQUISITION CORPORATION
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Proposed Business Combination

On July 15, 2021, the Company entered into a Business Combination Agreement (the “Original Business Combination Agreement”), by and among the Company, ServiceMax, Inc., a Delaware corporation (“ServiceMax”), and Stronghold Merger Sub, Inc., a Cayman Islands exempted company incorporated with limited liability and a wholly owned subsidiary of ServiceMax. On August 11, 2021, the Company, ServiceMax and Serve Merger Sub, Inc., a Delaware corporation and a wholly owned subsidiary of the Company (“Serve Merger Sub”), entered into an Amended and Restated Business Combination Agreement, (the “Business Combination Agreement”), amending and restating the Original Business Combination Agreement to provide that, among other things, (i) the Company will acquire in a tax-free reorganization all of the equity securities of ServiceMax and (ii) the Company intends to transfer by way of continuation from the Cayman Islands to Delaware and domesticate as a Delaware corporation in accordance with Section 388 of the DGCL and Part XII of the Cayman Islands Companies Act (as revised), pursuant to which the Company's jurisdiction of incorporation will be changed from the Cayman Islands to the State of Delaware (the “Domestication”).

In connection with the Domestication, on the date on which the Closing occurs (the “Closing Date”) prior to the Effective Time (as defined in the Business Combination Agreement): (i) the Company's name will change to “ServiceMax, Inc.” (the Company upon and after the consummation of the Domestication being referred to herein as “New SM”), (ii) each issued and outstanding Class A ordinary share, par value \$0.0001 per share (the “Class A ordinary shares”), and each issued and outstanding Class B ordinary share, par value \$0.0001 per share (the “Class B ordinary shares”), of the Company will be converted into one share of common stock, par value \$0.00001 per share, of New SM (the “New SM Common Stock”); (iii) each issued and outstanding whole warrant to purchase Class A ordinary shares of the Company will automatically represent the right to purchase one share of New SM Common Stock at an exercise price of \$11.50 per share on the terms and conditions set forth in the the Company warrant agreement; (iv) the governing documents of the Company will be amended and restated and become the certificate of incorporation and the bylaws of New SM; and in connection with clauses (ii) and (iii) of this paragraph, each issued and outstanding Unit of the Company that has not been previously separated into the underlying Class A ordinary shares of the Company and the underlying warrants of the Company prior to the Domestication will be cancelled and will entitle the holder thereof to one share of New SM Common Stock and one-fifth of one warrant representing the right to purchase one share of New SM Common Stock at an exercise price of \$11.50 per share on the terms and subject to the conditions set forth in the the Company warrant agreement.

In accordance with the terms and subject to the conditions of the Business Combination Agreement, at the Effective Time, (i) each share of common stock of ServiceMax (having been distributed to the former vested equityholders of ServiceMax's parent pursuant to certain pre-closing reorganization transactions) will be exchanged for shares of New SM Common Stock, based on an implied ServiceMax pre-transaction equity value of \$1.425 billion, subject to adjustment which would subtract (a) the amount of the cash payments being made to holders of vested profits interests of Parent pursuant to the pre-closing reorganization transactions and (b) the employer portion of any payroll, social security, employment or similar taxes payable in connection with the vesting or settlement of any vested profits interests and cash awards of Parent, and (ii) each equity award with respect to ServiceMax common stock pursuant to the ServiceMax Inc. 2021 Rollover Incentive Plan outstanding as of immediately prior to the Effective Time (including the equity awards issued to holders of unvested equity awards of Parent pursuant to the pre-closing reorganization transactions) will be converted into the right to receive New SM Common Stock in lieu of common stock of ServiceMax.

Strategic Investment

In connection with the Business Combination Agreement, Pathfinder and ServiceMax entered into subscription agreements with certain investors (the “Strategic Investors”), pursuant to which the Strategic Investors agreed to subscribe for and purchase, and Pathfinder agreed to issue and sell to the Strategic Investors an aggregate of 1,037,500 shares of Class A common stock (the “Strategic Shares”) for a purchase price of \$10.00 per share, for expected aggregate gross proceeds of \$10,375,000.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References to the “Company,” “Pathfinder Acquisition Corporation,” “Pathfinder,” “our,” “us” or “we” refer to Pathfinder Acquisition Corporation. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited interim condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other SEC filings.

Overview

We are a blank check company incorporated as a Cayman Islands exempted company on December 18, 2020. We were formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). We are an emerging growth company and, as such, we are subject to all of the risks associated with emerging growth companies.

Our sponsor is Pathfinder Acquisition LLC, a Delaware limited liability company (“Sponsor”). The registration statement for our Initial Public Offering was declared effective on February 16, 2021. On February 19, 2021, we consummated its Initial Public Offering of 32,500,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”), including 2,500,000 additional Units to partially cover over-allotments (the “Over-Allotment Units”), at \$10.00 per Unit, generating gross proceeds of \$325.0 million, and incurring offering costs of approximately \$18.5 million, of which approximately \$11.4 million was for deferred underwriting commissions. The underwriters had 45 days from the effective date of the prospectus to exercise the remaining portion of its option to purchase up to 2,000,000 Units at the Initial Public Offering price to cover over-allotments, if any. On April 2, 2021, the over-allotment option on the remaining Units expired unexercised by the underwriters.

Simultaneously with the closing of the Initial Public Offering, we consummated the private placement (“Private Placement”) of 4,250,000 warrants (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”) to the Sponsor, each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$2.00 per Private Placement Warrant, generating gross proceeds to the Company of \$8.5 million.

Upon the closing of the Initial Public Offering and the Private Placement, \$325.0 million (\$10.00 per Unit) of the net proceeds of the Initial Public Offering and certain of the proceeds of the Private Placement was placed in a trust account (“Trust Account”) with Continental Stock Transfer & Trust Company acting as trustee and was invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940, as amended, or the Investment Company Act, which are invested only in direct U.S. government treasury obligations, as determined by us, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

Our management has broad discretion with respect to the specific application of the net proceeds of its Initial Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. Our initial Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on the income earned on the Trust Account) at the time we sign a definitive agreement in connection with the initial Business Combination. However, we will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target business or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act.

If we are unable to complete a Business Combination within the Combination Period, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay its income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and its board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii) to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

Recent Developments

Promissory Note

On July 15, 2021, the Company issued a promissory note (the "Working Capital Note") to the Sponsor providing for borrowings by the Company in an aggregate principal amount of up to \$500,000. The Working Capital Note was issued to allow for borrowings from time to time by the Company for working capital expenses. The Working Capital Note (i) bears no interest, (ii) is due and payable upon the earlier of (a) February 19, 2023 and (b) the date that Pathfinder consummates an initial business combination and (iii) may be prepaid at any time. As of August 13, 2021, there was no amount outstanding under the Working Capital Note.

Proposed Business Combination

On August 11, 2021, we entered into an amended and restated business combination agreement with ServiceMax, Inc., a Delaware corporation ("ServiceMax"), and Serve Merger Sub, Inc., a Delaware corporation and a wholly owned subsidiary of us and certain related agreements, as further described in Note 9 to the condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

Strategic Investment

In connection with the Business Combination Agreement, we and ServiceMax entered into subscription agreements with certain investors, as further described in Note 9 to the condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

Liquidity and Capital Resources

As of June 30, 2021, we had approximately \$332,000 in our operating bank account, and working capital of approximately \$785,000.

Our liquidity needs had been satisfied through the payment of \$25,000 from the Sponsor to cover for certain of our expenses in exchange for the issuance of the Founder Shares (as defined in Note 4 to the financial statements included in Item 1 of this Quarterly Report), and a loan of approximately \$129,000 pursuant to the Note issued to the Sponsor (as defined below). We repaid the Note in full on February 19, 2021. Subsequent to the consummation of the Initial Public Offering and Private Placement, our needs have been satisfied with the proceeds from the consummation of the Private Placement not held in the Trust Account. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor will provide us Working Capital Loans (as defined in Note 4 to the financial statements included in Item 1 of this Quarterly Report). As of June 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loan.

Based on the foregoing, management believes that we will have sufficient working capital and borrowing capacity from our Sponsor or an affiliate of our Sponsor, or certain of our officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, we will be using the funds held outside the Trust Account for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on our financial position, results of our operations and/or search for a target company, the specific impact is not readily determinable as of the date of the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Results of Operations

Our entire activity since inception up to June 30, 2021 was in preparation for our formation and the Initial Public Offering and since the Initial Public Offering, searching for a business combination target company. We do not expect to generate any operating revenues until the closing and completion of our initial Business Combination.

For the three and six months ended June 30, 2021, we had net income of approximately \$2.9 million and \$4.0 million, which consisted of approximately a \$3.2 million and \$5.1 million of non-operating gain resulting from the change in fair value of derivative warrant liabilities and approximately \$8,000 and \$9,000 of income from investments held in trust account, partially offset by approximately \$290,000 in general and administrative expenses, and approximately \$575,000 and \$0 in offering costs associated with derivative warrant liabilities.

Contractual Obligations

Administrative Services Agreement

Commencing on the date that our securities were first listed on the Nasdaq Capital Market (“NASDAQ”) through the earlier of consummation of the initial Business Combination and the liquidation, we agreed to pay the Sponsor \$10,000 per month for office space, secretarial and administrative services provided to us.

In addition, the Sponsor, officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. The audit committee will review on a quarterly basis all payments that were made by us to the Sponsor, officers or directors, or us or their affiliates. Any such payments prior to an initial Business Combination will be made from funds held outside the Trust Account.

We incurred approximately \$30,000 and \$50,000 in general and administrative expenses in the accompanying unaudited condensed statements of operations for the three and six months ended June 30, 2021. As of June 30, 2021 and December 31, 2020, the Company had accrued approximately \$10,000 and \$0, respectively, for services in connection with such agreement on the accompanying condensed balance sheets.

Registration and Shareholder Rights

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans) are entitled to registration rights pursuant to a registration and shareholder rights agreement entered into on the effective date of the Initial Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$6.5 million in the aggregate, payable upon the closing of the Initial Public Offering. In addition, \$0.35 per unit, or approximately \$11.4 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

Critical Accounting Policies

Derivative Warrant Liabilities

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to FASB ASC Topic 480 “Distinguishing Liabilities from Equity” (“ASC 480”) and FASB ASC Topic 815, “Derivatives and Hedging” (“ASC 815”). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The 6,500,000 warrants issued in connection with the Initial Public Offering (the “Public Warrants”) and the 4,250,000 Private Placement Warrants are recognized as derivative liabilities in accordance with ASC 815. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the carrying value of the instruments to fair value at each reporting period until they are exercised or expires. The initial fair value of the Public Warrants issued in connection with the Public Offering and the fair value of the Private Placement Warrants have been estimated using a binomial lattice model in a risk-neutral framework. The fair value of the Public Warrants as of June 30, 2021 is based on observable listed prices for such warrants. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

Class A ordinary shares subject to possible redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC 480. Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including shares of Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders’ equity. The Company’s Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, as of June 30, 2021 and December 31, 2020, 29,823,880 and 0 shares of Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders’ equity section of the Company’s condensed balance sheets.

Net income (loss) per ordinary share

Net income (loss) per ordinary share is computed by dividing net income (loss) by the weighted-average number of shares of ordinary shares outstanding during the period. The Company has not considered the effect of the warrants sold in the Initial Public Offering and private placement to purchase an aggregate of 10,750,000 shares of the Company’s ordinary shares in the calculation of diluted loss per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company’s unaudited condensed statements of operations includes a presentation of income (loss) per share for ordinary shares subject to redemption in a manner similar to the two-class method of income (loss) per ordinary share. Net income (loss) per ordinary share, basic and diluted, for Class A ordinary shares for the three and six months ended June 30, 2021, is calculated by dividing the income from investments held in the Trust Account of approximately \$8,000 and \$9,000, respectively, for the three and six months ended June 30, 2021, by the weighted average number of Class A ordinary shares outstanding for the period.

Net income (loss) per ordinary share, basic and diluted, for Class B ordinary shares is calculated by dividing the net income (loss), adjusted for income or loss attributed to Class A ordinary shares, by the weighted average number of shares of Class B ordinary shares outstanding for the period.

Recent Accounting Pronouncements

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, “Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity” (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on January 1, 2021. Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

The Company’s management does not believe that any other recently issued, but not yet effective, accounting standards updates, if currently adopted, would have a material effect on the Company’s unaudited condensed financial statements.

Off-Balance Sheet Arrangements

As of June 30, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

JOBS Act

The Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”) contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an “emerging growth company” and under the JOBS Act are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, the financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our Initial Public Offering or until we are no longer an “emerging growth company,” whichever is earlier.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item. As of June 30, 2021, we were not subject to any market or interest rate risk. The net proceeds of the Initial Public Offering, including amounts in the Trust Account, was invested in money market funds that meet certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended, that invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

We have not engaged in any hedging activities since our inception, and we do not expect to engage in any hedging activities with respect to the market risk to which we are exposed.

Item 4. Controls and Procedures

On April 12, 2021, the staff at the Securities and Exchange Commission (the “SEC”) issued a statement on Accounting and Reporting Considerations for Warrants Issued by Special Purpose Acquisition Companies (“SPACs”) (the “SEC Statement”). In the SEC Statement, the SEC staff noted that certain provisions in the typical SPAC warrant agreement may require that the warrants be classified as a liability measured at fair value, with changes in fair value reported each period in earnings, as compared to the historical treatment of the warrants as equity, which has been the practice of most SPACs, including us. We had previously classified our private placement warrants and public warrants as equity (for a full description of our private placement warrants and public warrants, refer to the registration statement on Form S-1 (File No. 333- 251649), filed in connection with the Company’s initial public offering, declared effective by the SEC on January 14, 2021).

After considering the SEC Statement, we concluded that there were misstatements in the February 19, 2021 audited closing balance sheet we filed with the SEC on Form 8-K on February 25, 2021. Based on the guidance in Accounting Standards Codification (“ASC”) 815-40, “Derivatives and Hedging — Contracts in Entity’s Own Equity”, we concluded that provisions in the warrant agreement preclude the warrants from being accounted for as components of equity. As the warrants meet the definition of a derivative as contemplated in ASC 815, the warrants should have been recorded as derivative liabilities on the balance sheet and measured at fair value at inception and at each reporting date in accordance with ASC 820, “Fair Value Measurement”, with changes in fair value recognized in the statement of operations in the period of change. Further, ASC 815 requires that upfront costs and fees related to items for which the fair value option is elected (our warrant liabilities) should have been recognized as expense as incurred.

We have corrected the accounting for the warrants in our Quarterly Report on Form 10Q for the fiscal quarter ended March 31, 2021, as filed with the SEC on June 4, 2021.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended June 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation and in light of the SEC Staff Statement, our Certifying Officers concluded that, solely due to the Company’s misapplication of the accounting for the Company’s warrants as liabilities described in in our Quarterly Report on Form 10Q for the fiscal quarter ended March 31, 2021, as filed with the SEC on June 4, 2021, our disclosure controls and procedures were not effective as of June 30, 2021.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

Other than as described herein, there was no change in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2021 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Management has implemented remediation steps to address the material weakness and improve our internal control over financial reporting. Specifically, management has expanded and improved the Company’s review process for complex securities and related accounting standards. As of June 30, 2021, the Company’s material weakness has not been fully remediated.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our final prospectus filed with the SEC on February 18, 2021, and the Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2021, as filed with the SEC on June 4, 2021. We may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

* These certifications are furnished to the SEC pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and are deemed not filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

(1) Previously filed as an exhibit to our Current Report on Form 8-K filed on February 22, 2021 and incorporated by reference herein.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Dated: August 16, 2021

PATHFINDER ACQUISITION CORPORATION

By: /s/ David Chung

Name: David Chung

Title: Chief Executive Officer

CERTIFICATION
PURSUANT TO RULES 13a-14(a) AND 15d-14(a)
UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, David Chung, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2021 of Pathfinder Acquisition Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
